"Looks aren't everything. It's what's inside you that really matters. A biology teacher told me that."

Flu Update

Please read the letter on flu update that the district has sent to us for distribution to our parents.

If your child has flu-like symptoms, do not send him or her to school.

Please visit www.sandi.net/H1N1 for more information.

PROJECTS FOR THIS SCHOOL YEAR

Dear parents and students,

We are going to be working on very important projects this year.

Charter renewal, high school application, facilities for high school, last phase of accreditation, campus improvement, CALPADS reporting, transitioning to an upgraded MagnoXP school information system, and forming an SSC are some of the big projects in front of us. Renewing both computer labs is another project for the summer.

Even though this is a lot of work for one year besides our regular every day duties, we will be working hard as a team to do our best and succeed in all these projects. There will be times we will be asking for your help and involvement in these projects.

Together we will rise!

MULTI-YEAR LEASE

The district has made a move to sign multi-year leases with successful charter schools. We will be signing a 5-year lease, at a reduced rental rate, very soon. The district is also aware of our facility needs for high school on our upper P.E. field. They seem positive about this need. We will have more info after they check the infrastructure. We will be including this in our high school application for the board's approval.

TEACHER OFFICE HOURS

I would like to encourage you to visit your teachers during their office hours to learn about your child's academic progress and what needs to be done for further improvement. You don't need to make an appointment for office hours. Why not take advantage of this opportunity?

FUNDRAISING

Thank you for your participation in the \$1/day fundraiser. Our office and teachers will be coordinating more fundraising activities to help reduce field trip costs and contribute to school improvement. Thank you for your help and donations; every dollar counts.

LEGO ROBOTICS

Due to high volume of interest, we have decided to open a second session of Lego Robotics club on Thursdays. Mr. Bidak will be in touch with the students who will be in this club. We have purchased new robot sets, and we will be asking those parents for their generous donations.

LOCKERS

We have ordered more lockers for P.E. to cover every student. If your child has any problems with lockers, please contact Mr. Stevens at nstevens@magnoliascience.org.
